FEATURE ACCEPTANCE CHECKLIST

Client confirmation of implemented features

SYSTEM TITLE	**Student Exam & Results Management System**
Client / Organization	Wayamba University of Sri Lanka
Date of Acceptance	
Verified by (Name & Designation)	

Features

Main Feature	Feature	Implemented	Remarks
Authentication & Accounts	University e-mail login, self-service lecturer sign-up, forgot-password recovery e-mail, tokenised password reset, in-app password change	**Yes**	Open: verified sender domain for live reset e-mails. Passwords hashed with scrypt; legacy accounts upgrade on next login.
Authentication & Accounts	Profile settings for full name, recovery e-mail and password; role-based dashboards for Administration, HOD, Lecturer and Second Examiner; workspace switching; logout	**Yes**	Open: server-side API authorization. Access follows granted capabilities; blocked routes show the unauthorized page.
System Administration	Create and delete user profiles, grant and revoke HOD, Active Lecturer and Examiner access	**Yes**	Deletes are confirmed first; capability toggles save immediately per user.
System Administration	Assign Second Examiners per module	**Yes**	Second Examiner assignments lock once a marksheet is submitted, frozen or finalised; recall before reassigning.
HOD Console	Add, edit and delete modules (lecturer, eligible cohort, deadline); freeze and unfreeze modules	**Yes**	Frozen modules make all marking inputs read-only.
HOD Console	Faculty lecturer roster with role badges and module assignments	**Yes**	Shows HOD, Active Lecturer and Examiner capabilities per lecturer.
HOD Console	Result sheets and student mark summary	**Yes**	Summary shows weighted CA and final totals, letter grade, handover details and second-marking variance.
Marks Management	Blueprint setup for CA components and the final paper; weightages validated to 100%	**Yes**	Blueprint drives marking, weighting and the exam template.
Marks Management	CA component types: Quiz, Assignment, Midterm, Tutorial, Lab Report, Project, Presentation and MCQ	**Yes**	MCQ is all-compulsory; written types may allow optional answers.
Marks Management	Individual or common per-question weighting; highest-scoring required answers count (best-N)	**Yes**	Per-question maximum marks clamp entries; best-N totals computed per component.
Marks Management	Group A practical and Group B written (MCQ, essay) sections; auto-generated exam paper template	**Yes**	Sections carry their own weights; legacy flat blueprints upgrade automatically.
Marks Management	Question-by-question CA and final-paper marking; quick full-marks and zero buttons; absence marking (CA, theory, practical, final)	**Yes**	Any absence grades I; an explicitly entered zero grades E.

Main Feature	Feature	Implemented	Remarks
Marks Management	Cohort eligibility authorisation and per-student eligibility untick; student roster add, edit and delete; roster paste; Excel import with blank roster-prefilled templates	**Yes**	Ineligible rows are excluded from totals, exports and printouts.
Marks Management	Marksheet completeness audit gating handover	**Yes**	Blocking issues must clear before the marksheet goes for second checking.
Second Examiner Workflow	Handover and recall of the marksheet; independent second marking of the final paper	**Yes**	After handover the Second Examiner checks and corrects the First Examiner's marks; originals preserved, corrections highlighted.
Second Examiner Workflow	Weighted variance check and First Examiner approval	**Yes**	Weighted variance above 1 needs First Examiner approval, then reconciliation.
Second Examiner Workflow	Reconciliation and finalisation close the marksheet	**Yes**	Clean marksets finalise straight to FINALIZED; flagged ones close as RECONCILED.
Results, Grading & Reports	Marksheet summary with weighted CA and final totals, module mark, letter grade and CSV export	**Yes**	Module mark = Σ (marks obtained ÷ marks obtainable × weightage).
Results, Grading & Reports	Letter grading A+ to E plus I	**Yes**	Grade uses the unrounded mark (69.5 shows 70, grade A-); absence gives I, zero gives E.
Results, Grading & Reports	Excel marksheet templates for CA and Final; print/PDF marksheet and grouped CA register	**Yes**	Templates are roster-prefilled; prints omit ineligible rows.
Security & Platform	Password hashing with scrypt, expiring password-reset tokens, anti-enumeration recovery responses	**Yes**	Legacy plain-text accounts upgrade their hash on next login; users are never locked out.
Security & Platform	PostgreSQL/Prisma data model with versioned migration and seed users; automated tests (grading, blueprint, best-N, examiner routes)	**Yes**	Deterministic demo accounts cover every role for client testing.

Declaration

By signing below, the client confirms that the features marked as Implemented in Section C have been demonstrated and tested, and are accepted as satisfying the corresponding requirements. Items recorded in Section E remain open and do not constitute acceptance. Acceptance of the features listed here does not waive any warranty, support or defect-rectification obligation agreed in.
